

SANDIA NATIONAL LABORATORIES

ECONOMIC IMPACT

SANDIA

Program Portfolios

James S. Peery, Ph.D.
Laboratories Director

"Diverse small-business suppliers are integral to the mission success of Sandia National Laboratories. They promote innovation and help Sandia deliver cutting-edge technology to the marketplace. We are committed to partnering with small businesses to achieve our national security missions while strengthening the local and national economies."

A handwritten signature in black ink, likely belonging to James S. Peery.

NUCLEAR DETERRENCE

Sandia's primary mission is ensuring the U.S. nuclear arsenal is safe, secure, and reliable, and can fully support our nation's deterrence policy.

GLOBAL SECURITY

We protect the U.S. from threats at home and abroad by developing the technical expertise to monitor and assess emerging dangers, guard materials and critical assets, and respond to crises.

NATIONAL SECURITY PROGRAMS

Sandia provides systems, science, and technology to meet national security objectives in such areas as cybersecurity, science and technology products, and integrated military systems.

ADVANCED SCIENCE & TECHNOLOGY

Sandia provides the science needed to enable the U.S. nuclear stockpile, and does fundamental scientific, biomedical, and environmental research to enhance national security, economic competitiveness, and improved quality of life.

ENERGY & HOMELAND SECURITY

We support the resilience and security of the nation's energy system, protect digital and physical critical infrastructure, and reduce U.S. vulnerability to chemical, biological, radiological, and nuclear terrorism.

2020

Economic Impact

David J. Dietz

Director, Integrated Supply Chain Management

"Sandia National Labs depends on our diverse, small-business supplier base that brings technical experience, ingenuity and responsiveness. We are committed to increasing small-business goals, the 5% New Mexico small-business pricing preference and the newly launched Mentor-Protégé' Program. We look forward to continuing to build relationships with small and diverse suppliers to achieve our national security mission and further economic prosperity."

BECOME A SANDIA SUPPLIER

Sell your capabilities:

- How can you help Sandia meet its requirements? Identify how your capabilities align with our mission and how you are unique in areas such as innovation, technical expertise, safety, security, business acumen, financial strength, quality systems, and prior experience.

Supply best value:

- Demonstrate your sustained high performance in quality, safety, and on-time delivery for products and services at a competitive cost. Demonstrate how you ensure customer focus/satisfaction and how you continually develop your business.

Secure the supply chain:

- Prevent suspect/counterfeit and fraudulent items from entering Sandia's supply chain.

Paul Sedillo

Manager, Small Business Program,
Supply Chain Risk Management and
Supplier Diversity

"Sandia's small-business spend has continued to remain high despite the challenges that so many businesses are facing. It is hard work and resiliency that make small businesses special. As Sandia's Small Business Program Manager, I am dedicated to doing everything that I can to ensure that small and diverse businesses have every opportunity to work with Sandia National Labs. Our supplier diversity team is passionate about what we do and know that the relationships that exist between Sandia and its small businesses are vital to the labs and our nation."

PROCESS:

- **Get a DUNS #**
- **Identify your primary NAICS codes**
- **Registration in SAM.gov is strongly encouraged**
